# Healthy Youth Survey 2002 Survey Results

Douglas County, Grade 10

Number of students surveyed: 366
Number of valid responses: 344
Number of participating schools: 4
County response rate: 67%

The impact of adolescent health risk behaviors remains a primary concern of citizens throughout the country. Many health problems experienced by adolescents are caused by a very few preventable behaviors. Patterns of alcohol, tobacco, and other drug (ATOD) use and related risk behaviors are often formed during adolescence. These patterns play an important role in health throughout adulthood.

This report presents results from the fall 2002 Healthy Youth Survey in Washington State. For each item, local results appear in the first two columns and statewide results appear in the second two columns. The number of valid responses ("n") appears in parentheses for each item. Survey items covering the same topics are grouped together (the item numbering is specific to this report and does not necessarily reflect the item order on the actual survey). The bulleted points and graphs included at the beginning of this report highlight selected findings from the report. Additional information may be found in the *Interpretive Guide* that accompanied this report.

#### **Key to the Notes**

The survey was administered in 3 versions. Forms A and B were administered to students in Grades 8, 10, and 12. These two forms contained a core set of common items and additional items unique to each form. Form C was administered to students in Grade 6. This form consisted primarily of questions drawn from Forms A and B but also included some unique items. Several items on each form were optional at the discretion of the school; schools that did not administer the optional questions tore off the last page of the survey booklet. The following notes are used throughout this report to document the differences between the items on different versions and note the optional items:

A =wording on Form A

B = wording on Form B

C =wording on Form C

° = answer choices presented in a different order on one or more versions of the survey

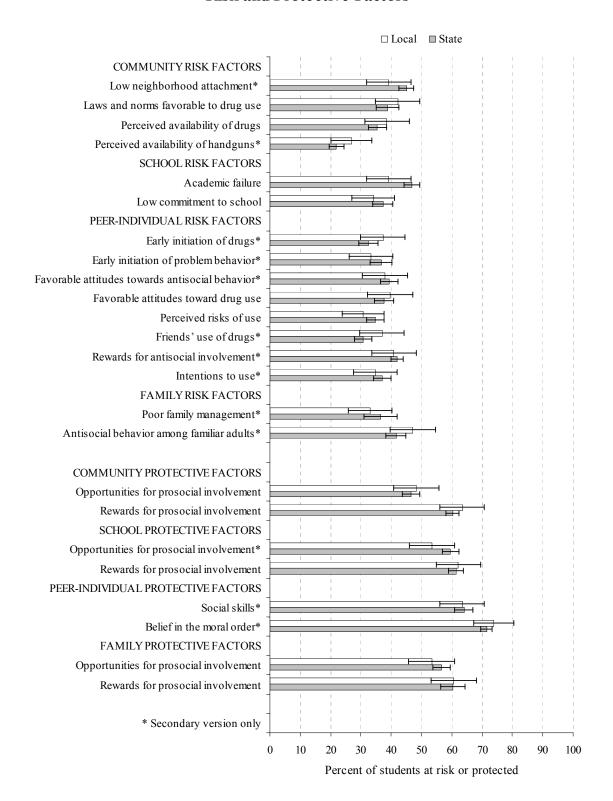

† = optional item

### **Highlights of the Local Results**

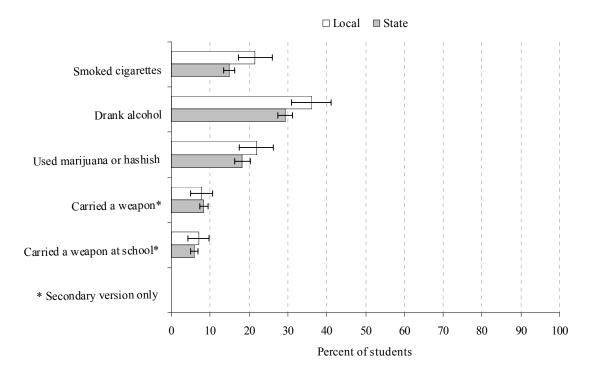

Your students and students statewide reported the following behaviors and attitudes:

		Your stu	ıdents	Stat	ewide
•	Smoking cigarettes in the past 30 days (see item 25)	21.6%	$(\pm 4.4\%)$	15.0%	$(\pm 1.4\%)$
•	Drinking alcohol in the past 30 days (see item 31)	36.2	$(\pm 5.1)$	29.3	$(\pm 1.9)$
•	Using marijuana or hashish in the past 30 days (see item 32)	21.9	$(\pm 4.4)$	18.3	$(\pm 1.9)$
•	Carrying a weapon in the past 30 days (see item 111)	7.9	$(\pm 2.8)$	8.4	$(\pm 1.0)$
•	Carrying a weapon at school in the past 30 days (see item 112)	7.0	$(\pm 2.7)$	6.0	$(\pm 0.9)$
•	Being bullied in the past 30 days (see item 136)	25.4	$(\pm 4.7)$	22.2	$(\pm 1.7)$
•	Enjoyed being in school over the past year (see item 182)	42.7	$(\pm 5.3)$	40.0	$(\pm 2.1)$
	Feeling safe at school (see item 193)	85.1	$(\pm 3.8)$	84.1	$(\pm 1.8)$

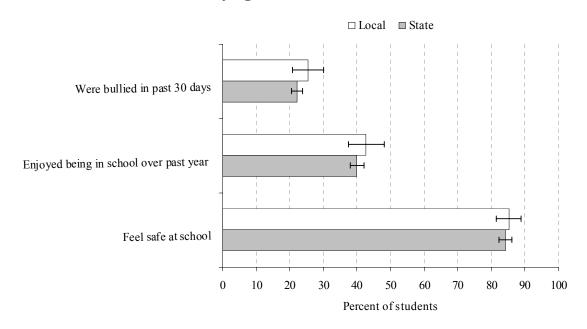

### **Risk and Protective Factors**

# Substance Use and Weapon Carrying in the Past 30 Days

# **Bullying and School Climate**

# Selected Results Disaggregated by Gender

25.	During the past 30 days, on how many days did you smoke	Local		Sta	te
cigarettes?	(n = 342)		(n = 4,976)		
		Female	Male	Female	Male
	None	83.4%	73.7%	84.8%	85.3%
	1 or more	16.6	26.4	15.2	14.7

*Note.* Results are suppressed if any cell represents fewer than 15 students; p = .03 from a chi-square test.

31.	During the past 30 days, on how many days did you drink a	Local	State
	glass, can or bottle of alcohol (beer, wine, wine coolers,	(n = 342)	(n = 4.955)
	hard liquor)?		

	Female	Male	Female	Male
None	66.9%	60.5%	70.0%	71.5%
1 or more	33.1	39.5	30.0	28.5

*Note.* Results are suppressed if any cell represents fewer than 15 students; p = .22 from a chi-square test.

72. Think back over the last 2 weeks. How many times have you had five or more drinks in a row? (A drink is a glass of wine, a bottle of beer, a shot glass of liquor, or a mixed drink.)

State (n = 340) (n = 4,904)

	Female	Male	Female	Male
None	82.9%	73.9%	81.6%	81.1%
Once or more	17.1	26.1	18.4	18.9

*Note*. Results are suppressed if any cell represents fewer than 15 students; p = .05 from a chi-square test.

126.	During the past 12 months, did you ever feel so sad or	Local	State
	hopeless almost every day for two weeks or more in a row	(n = 333)	(n = 4,764)
	that you stopped doing some usual activities?		

	Female	Male	Female	Male
No°	63.2%	77.8%	63.4%	78.3%
Yes	36.8	22.2	36.6	21.7

*Note.* Results are suppressed if any cell represents fewer than 15 students; p = <.001 from a chi-square test.

136.	In the last 30 days, how often have you been bullied?	(n=3)		(n=4)	
		Female	Male	Female	Male
	I have not been bullied	77.9%	71.0%	78.3%	77.3%
	Once or more	22.1	29.0	21.7	22.7

*Note.* Results are suppressed if any cell represents fewer than 15 students; p = .15 from a chi-square test.

400		Loca	l	Sta	te
193.	I feel safe at my school.	(n = 34)	-2)	(n = 5,	,059)
		Female	Male	Female	Male
	No	12.6%	17.4%	13.6%	18.2%

# Alcohol, Tobacco, and Other Drug Use

Alcohol, tobacco, and other drug use has been a major concern in this country for many years. The consequences of ATOD use are well known. In the short term, ATOD use interferes with positive physical, emotional, and social development. In the long term, ATOD use is associated with delinquency and criminal activity, unintended injuries, and a variety of health complications including shorter life expectancy. The economic costs of ATOD use are enormous (in Washington State an estimated \$1.81 billion in 1990 and \$2.54 billion in 1996). Tobacco use is the world's leading cause of preventable death, disease, and disability. This section provides information about lifetime ATOD use (which in part reflects experimental use), use in the past 30 days (i.e., current use), other tobacco-related questions, and other alcohol- and drug-related questions.

#### Lifetime Use

## **Other Health Concerns**

This section provides results regarding other health concerns including nutrition and fitness, health conditions and health care, safety, behaviors related to intentional injury, and depression. Proper nutrition and exercise are critical components of a healthy life, as is access to preventive health care. Safety-related behaviors, such as wearing a seat belt when in a moving vehicle, can profoundly influence the outcome of an accident. Injury is the leading cause of death for adolescents aged 10 to 19, and violence contributes to injury-related deaths. People who are depressed experience a range of symptoms, and depression is associated with suicidal behavior.

#### **Nutrition and Fitness**

74.	Overweight: "Overweight" includes students who are in the top 5% for body mass index by age and gender based on growth charts developed by the Centers for Disease Control and Prevention (2000). "At risk for overweight" includes students who are in the top 15% but not the top 5%. (Computed from numeric responses to "How tall are you without your shoes on?" and "How much do you weigh without your shoes on?")	Local ( <i>n</i> = 161)		State $(n = 2,353)$

## **School Climate**

In the past few years Washington State has given increased attention to supportive learning environments. Students need a safe, nurturing, healthy, and civil learning environment if they are to be successful in school. This section provides information about student perceptions of school climate.

136.	A student is being bullied when another student, or group of students, say or do nasty or unpleasant things to him or her. It is also bullying when a student is teased repeatedly in a way he or she doesn't like. It is NOT bullying when two students of about the same strength quarrel or fight. In the last 30 days, how often have you been bullied?	Local $(n = 335)$			tate 4,849)
	a. I have not been bullied	74.6%	$(\pm 4.7\%)$	77.8%	(± 1.7%)
	b. Once	9.6	$(\pm 3.2)$	10.5	$(\pm 0.8)$
	c. 2–3 times	6.9	$(\pm 2.7)$	5.8	$(\pm 0.6)$
	d. About once a week	3.6	$(\pm 2.0)$	2.3	$(\pm 0.6)$
	e. Several times a week	5.4	$(\pm 2.4)$	3.6	$(\pm 0.6)$
137.	During the past 30 days, on how many days did you not go	Loc	al	S	tate
	to school because you felt you would be unsafe at school or on your way to or from school?	(n=1)	71)	(n =	2,551)
	a. 0 days	93.6%	$(\pm 3.7\%)$	95.3%	(± 1.0%)
	b. 1 day	4.1	$(\pm 3.0)$	2.5	$(\pm 0.6)$
	c. 2–3 days	2.3	$(\pm 2.3)$	1.1	$(\pm 0.5)$
	d. 4–5 days	0.0	$(\pm 0.0)$	0.4	$(\pm 0.3)$

# **Quality of Life**

Health-related quality of life is an individual's or group's perceived physical and mental health over time. At the individual level it involves a person's health and health-related conditions; at the community level it involves conditions that influence people's health. This section contains the results of the items related to quality of life.

[Item 156 appears only on the elementary version of the survey.]

#### Risk and Protective Factor Scale Results

Decades of research have shown that certain risk factors are associated with increased likelihood of health risk behaviors including ATOD use, violence, and delinquent behaviors. Similarly, research has shown that protective factors exert a positive influence against the negative influence of risk factors. The survey included substantial coverage of risk and protective factors based on the work of Drs. Hawkins and Catalano and associates at the University of Washington. The premise of the risk reduction and protective factor enhancement approach to prevention is that preventing a problem before it occurs requires addressing the factors that predict the problem. Ideally, this strategy entails discovering the causes of the problem behavior and influencing those causes. Many of the survey items were used to assess students' status on risk and protective factors in the community, school, and peer-individual domains. Composite scales were computed for use in local program planning.

#### **Risk Factors**

For each scale, the percentage of students who are at risk (i.e., who agreed with statements that predict ATOD use or other problem behaviors) is listed. Higher percentages indicate that more students are likely to engage in problem behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

Community Risk Factors	Local		State	
	(n=1)	71)	State $(n = 2,551)$

	(n = 165)	(n = 2,241)	
Friends' use of drugs (Items 233–236)	$37.0\% \qquad (\pm 7.4\%)$	$30.7\% \ (\pm 2.9\%)$	
	(n = 171)	(n = 2,495)	
Rewards for antisocial involvement (Items 201–204)	40.9% (± 7.4%)	$41.8\% \ (\pm 2.0\%)$	
	(n = 164)	(n = 2,235)	
Intentions to use (Items 237–239)	34.8% (± 7.3%)	37.1% (± 2.9%)	
Family Risk Factors	Local	State	
	(n = 164)	(n = 1,362)	
Poor family management (Items 244–251)	32.9% (± 7.2%)	36.6% (± 5.5%)	
	(n = 172)	(n = 2,440)	
Antisocial behavior among familiar adults (Items 240–243)	47.1% (± 7.5%)	41.6% (± 3.4%)	

#### **Protective Factors**

For each scale, the percentage of students who are resilient (i.e., who agreed with statements that predict the ability to resist ATOD use or other problem behaviors) is listed. Higher percentages indicate that fewer students are likely to engage in problem behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

<b>Community Protective Factors</b>	Local	State $(n = 2,500)$ 46.6% $(\pm 2.9\%)$	
Opportunities for prosocial involvement (Items 171, 175–178)	(n = 172) $48.3%$ (± 7.5%)		
Rewards for prosocial involvement (Items 172–174)	(n = 172) $63.4%$ (± 7.2%)	(n = 2,521) 60.3% (± 2.2%)	
<b>School Protective Factors</b>	Local	State	
Opportunities for prosocial involvement (Items 186–190)	Local (n = 172) 53.5% (± 7.4%)	(n = 2,526) 59.6% (± 2.7%)	
Rewards for prosocial involvement (Items 191–194)	(n = 172) $62.2%$ (± 7.3%)	(n = 2,527) 61.4% (± 2.5%)	
Peer-Individual Protective Factors	Local	State	
Social skills (Items 209–212)	(n = 172) $63.4%$ (± 7.2%)		
Belief in the moral order (Items 205–208)	(n = 172) 73.8% (± 6.6%)		
Family Protective Factors	Local	State	
Opportunities for prosocial involvement (Items 252–254)	Local (n = 163) 53.4% (± 7.7%)	(n = 1,332) 56.7% (± 2.8%)	
Rewards for prosocial involvement (Items 255–258)	(n = 163) $60.7%$ (± 7.5%)		

## **Number of Risk or Protective Factors (Excluding optional Family scales)**

Although individual risk and protective factors serve as modest predictors of problem behaviors, students with multiple risk factors (or few protective factors) are much more likely to use ATOD or engage in other problem behaviors than are their peers. This section reports the percentage of students with given numbers of risk and protective factors. The number of risk factors was calculated only for students who answered enough items to receive scores on all risk factors included in the survey; the number of protective factors was similarly calculated. Readers should remember as they interpret the results that the number of risk factors included in the survey has changed over time.

Number of Risk Factors	Local of Risk Factors $(n = 157)$		State $(n = 2,026)$	
3 or fewer	41.4%	$(\pm 7.7\%)$	40.1% (± 3.9%)	
4 to 6	26.8	$(\pm 6.9)$	$26.6  (\pm 1.3)$	
7 to 10*	22.3	$(\pm 6.5)$	$23.2 (\pm 2.3)$	
11 to 14*	9.6	$(\pm 4.6)$	$10.2  (\pm 1.8)$	
* Maximum of 6 on the elementary version				
Number of Protective Factors	Local		State	
- 1,0	(n=1)	,	(n = 2,384)	
0 to 1	10.5%	$(\pm 4.6\%)$	$13.7\% \ (\pm 1.9\%)$	
2 to 3	37.4	$(\pm 7.3)$	29.6 $(\pm 1.9)$	
4 to 5*	33.3	$(\pm 7.1)$	$40.0  (\pm 2.0)$	
6*	18.7	$(\pm 5.8)$	16.7 $(\pm 2.0)$	
* Maximum of 3 on the elementary version				

## Risk and Protective Factors: Individual Item Results

The remainder of the report provides results for the individual items used to compute the risk and protective factors reported in the previous section.
